

£50

A GIFT OF SMILES

Make me smile – Say Cheese!

BRANSBY HORSES
Rescue and Welfare

Dentist

Horses' teeth grow constantly throughout their life. It is very important that the horses see a dentist at least once a year so that any sharp edges can be rasped away enabling the horse to eat easily, without fear of pain. Older horses often have more problems as their teeth become loose and sometimes fall out. These animals need to see the dentist as often as every six months.

A GIFT OF £50 HAS BEEN MADE TO BRANSBY HORSES

Your Gift has made a real difference.

Thank you – You have been given a gift which makes a real difference to the horses, ponies and donkeys in our care.

Bransby Horses is one of the UK's largest equine welfare charities.

Dedicated to improving the lives of horses, ponies, donkeys and mules since it was established in 1968; Bransby has rescued and rehabilitated, rehomed or retired literally hundreds of animals. We are working harder than ever to continue making a positive difference to equines wherever and whenever we can.

Bransby Horses operates two extremely busy equine rescue centres in Lincolnshire and Herefordshire. Around 450 horses, ponies, donkeys and mules are cared for across the Charity at any one time, with many more animals being rescued from neglect and cruelty every year. Our Lincolnshire site is open to the public every day and offers the chance to meet many of our wonderful equine residents, learn more about horses and their needs and find out more about the vital work the Charity carries out.
