

Identifying the early signs of laminitis

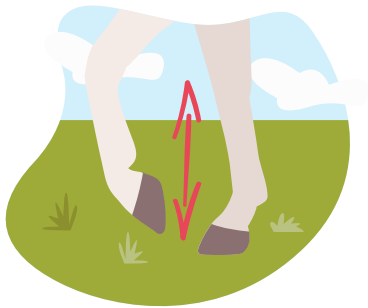

If you have any concerns about your horse and you can see any of the following signs, please seek the advice of your vet.

Difficulty turning,
leaning back on heels

A shortened,
uncomfortable stride

Moving weight from
one leg to the other

More comfortable
on soft surfaces

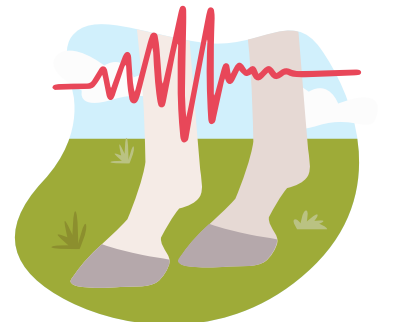

Heat in the foot

Change in
behaviour/demeanour

Unwilling to pick up feet and
take weight on to other leg

A strong digital pulse
